

FACES OF FELLWOOD CONSTRUCTION

Sustainable Fellwood - Phase I Factoids

- 176 (50%) Local Chatham county residents have worked on-site
- 139 individuals have been hired as "New" employees on-site
- 418 people have been badged to work on-site
- 30% M/WBE Goal Exceeded / Achieved Over 40% M/WBE participation

Sustainable Fellwood Phase I has been under construction for the past 6 months and is developing into a welcomed sight for the West Savannah Community. The project has badged over 400 workers to-date and has employed 35% New Hires, meaning individuals who would not have been employed otherwise. Sustainable Fellwood is a mixed-use, mixed income development composed of approximately 220 Housing Units and other community components. Phase I will include 110 affordable housing units and approximately 5 single family homes.

The project exceeded its 30% M/WBE goal achieving over 40% M/WBE participation. The project has employed a 50% local (Savannah/Chatham County) workforce. Additionally, the project has included 12 Chatham County (CAP) Construction Apprentice Program participants and 1 Department of Corrections inmate.

The faces on the construction site are faces of native Savannahians and who have lived and worked in the Community for Generations. Sustainable Fellwood is not only about the Sustainability of bricks and mortar but is about the sustainability of a People; a Community and Generations of people to come."
